## Akrapovič Slip-On exhaust system for the Audi S5 V8

The renowned designer Walter de'Silva considers Audi A5 to be one of the most beautiful automobiles he created in his illustrious career. One of the highlights of this coupe from Ingolstadt is the S5 version with a 4.2-liter eight valve engine that with its four-wheel drive also ensures a very enjoyable dynamic driving. The pleasures are fully enhanced with the use of the Akrapovič 'aftermarket' homologated Slip-On exhaust system that hits both the power increase and weight reduction note, as well as offers a stimulating sound. The Slip-On for the S5, used with an optionally supplied link pipe and wireless exhaust valve control system, is a must for everyone who wants to get more enjoyment from their automobile. Namely, the system offers a non-stock deep sporty sound, hair raising auditory pleasures due to open valves and a solemn elegance with closed valves for daily driving. You will be able to recognize an S5 fitted with an Akrapovič Slip-On exhaust system by four sporty round exhaust system tail pipes made from precious titanium and the truly deep sound, which can be regulated through a simple push on a button.

The Akrapovič Slip-On exhaust system for the Audi S5 offers a power increase in excess of 2 HP and additional torque of 14 Nm. The power increase is particularly noticeable between 1.500 rpm and 3.600 rpm - in the most often used range. The eight valve engine of the S5, fitted with the Akrapovič exhaust is more dynamic across the entire range. This high-quality stainless steel system, manufactured with the same attention to detail as always, offers a weight reduction of 4 kilograms, when used with the optional link pipe.

### Slip-On system, homologated:

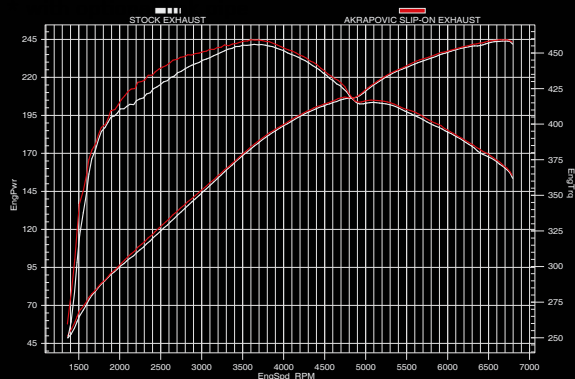

- 2 stainless steel mufflers
- 4 titanium tail pipes

### Hard facts:

- plus 2 HP (at 5.580 rpm)
- plus 14 Nm (at 2.330 rpm)
