FORD Mustang GT

Akrapovič Evolution exhaust system for the Ford Mustang GT (2005-2010)
Akrapovič Slip-On exhaust system for the Ford Mustang GT (2005-2010)

Akrapovič is proud to offer the finest in European craftsmanship and technology for a legend of the American highways. We offer two configurations of systems for the Mustang GT. The Slip-On (axle back) system comes with meticulously engineered dual mufflers and computer-controlled precision bent connection pipes. The Evolution system uses the same mufflers as the Slip-On system but also replaces the entire stock exhaust from the manifolds back using the factory mounting points. No modifications to the chassis are necessary. It also incorporates a high flow X-pipe design in place of the stock H-pipe arrangement. Additionally, you can choose between our 125 mm titanium or carbon fiber tail pipes to complete the package.

For a Mustang, sound is a key component of the driving experience. While the stock GT sounds good, adding the Akrapovič Slip-On system introduces a much deeper and more aggressive tone. Moving up to the Evolution system adds an even sportier and sharper sound than the Slip-On system alone, bringing out the true character of a classic American muscle car. Now for the details; The Slip-On system produces 9 horsepower and 36 Nm of torque more than stock while reducing overall weight by 3 kg. The complete Evolution system is even more impressive. On an otherwise stock vehicle the Evolution exhaust gains over 14 horsepower and an amazing 48 Nm of torque. A weight reduction of 15 kg is also achieved.

Evolution system:

- Stainless steel X-pipe (collector)
- 2 stainless steel link pipes
- 2 stainless steel mufflers

Hard facts:

- Plus 14 HP (at 5.250 rpm)
- Plus 48 Nm (at 1.600 rpm)
- 15 kg lighter than stock

Slip-On system:

- 2 stainless steel mufflers

Hard facts:

- Plus 9 HP (at 1.570 rpm)
- Plus 36 Nm (at 1.560 rpm)
- 3 kg lighter than stock

Optional:

- 2 polished titanium tail pipes
- 2 carbon fiber tail pipes

Hard facts: Stainless steel,
14 HP plus, 48 Nm plus, 15 kg lighter
