Porsche 911 GT2

Akrapovič Evolution exhaust system for the Porsche 911 GT2 (997)
Akrapovič Slip-On exhaust system for the Porsche 911 GT2 (997)

The most sportive model offered by Porsche is the GT2. This car exhibits Porsche's advanced technology, which is demonstrated in its ceramic composite brakes, maximum engine power with twin turbines and variable turbine geometry, but mainly, in its uncompromising lightweight components. The 997 GT2 is the first Porsche and also the first serial car which is originally equipped with an Akrapovič titanium exhaust system.

Because of comfort, durability and strict noise requirements regarding the exhaust system, some kind of compromise had to be made. This was reason enough for us to develop a real aftermarket "sport-exhaust version" for this super sports car. Our requirements were very simple: lighter, more powerful and better sounding exhaust system. Two hiflow 100 cpsi metallic cats, larger tube diameters, measuring not 55, but 60 mm, reduced the power-consuming backpressure by more than 50 %. This resulted in a power increase of 41 HP, a torque increase of 74 Nm and weight savings of 5 kg, compared to the stock system.

Evolution system:

- titanium header set
- titanium link pipes with integrated 100 cpsi catalysts
- titanium central muffler
- titanium tail pipes

Hard facts (100 cpsi cat version):

- plus 41 HP (at 4.080 rpm)
- plus 74 Nm (at 4.020 rpm)
- 5 kg lighter than stock

Slip-On system:

- titanium link pipes with integrated 100 cpsi catalysts
- titanium central muffler
- titanium tail pipes

Hard facts (100 cpsi cat version):

- plus 38 HP (at 3.940 rpm)
- plus 68 Nm (at 3.900 rpm)
- 2 kg lighter than stock

Hard facts:
Titanium, 41 HP plus, 74 Nm plus, 5 kg lighter

Porsche 911 GT2 Evolution system

When installing an aftermarket Akrapovič Evolution exhaust system, which is developed for use on closed track, we recommend remapping of the ECU to prevent possible "engine check light" warning signal.

The technical description of Akrapovič exhaust systems and similar products are subject to changes without prior notification. Images and illustrations can differ. Subject to technical alterations. We are not responsible for the correctness of the technical data content.
